## FATAL BLOOD DISORDERS CAN BE CURED BY BLOOD STEM CELL TRANSPLANT.

**Be a Blood Stem cell donor. You can be the cure.**

**Niya Fathima, aged 6, is battling against Thalassemia Major. Blood Stem Cell Transplant is the only permanent cure for this life-threatening disease. We are in immediate need of more Blood Stem Cell donors to help Niya Fathima find her lifesaver.**

**ACT NOW. GIFT A LIFE.**
