NOTE FROM OUR CHAIRPERSON

Dear Friends,

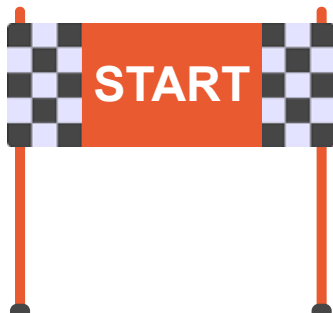

What a joy to once again connect with all of you through this Annual Report 2021-22. It is indeed a time to celebrate and share our impact with all of you who have been part of this wonderful journey. Our mission to save lives would not have been possible had you not chosen to walk with us. Your support has helped us to experience yet another meaningful year.

COVID-19 continued to challenge us. Our donor recruitment drives took a beating. Our collections too dipped. For most part of the year we worked remotely. But it was the same pandemic that taught us how to be resilient and gave us the opportunity to explore innovative ways to reach people. We conducted our Donor Recipient Meet virtually and in fact it helped us to reach larger audiences.

I take this opportunity to thank each of our donors, corporates, doctors, volunteers, colleges and communities for your timely support in our endeavor to gift more lives.

Let us all continue to be magnanimous in our generosity and strive to make a difference in the lives of many who suffer from blood cancer and blood disorders. DATRI values your support and we look forward to continue our journey with you by our side.

Thank you.

*We start with
Our Chairperson's message.*

Dr. Nezh Cereb
Co-founder & Chairperson
DATRI Blood Stem Cell Donors Registry

NOTE FROM OUR CHIEF FINANCIAL OFFICER

Dear Supporters,

I would like to thank you for everything you have done for us in our journey to gift lives. DATRI would not have been able to achieve so much without your invaluable contribution. No words are enough to thank you.

With every successful donation my conviction is strengthened and I say to myself “We have made it”. It gives me immense joy when I see 13-year old Aliva Rout enjoying life in its fullness because Prashant Venkataraman came forward to donate his blood stem cells and gift a life. Such gestures encourage us to work harder and our conviction stems from the support you have extended to us be it as a donor, partner, student or well-wisher. It is a privilege to have you solidly backing us.

This year we moved from virtual to face to face. Our donations picked up, corporates and institutes came forward to help us in our recruitment drives. We worked on strengthening our systems and strategies which helped us to upscale our impact.

Together we can bring a difference in the lives of so many. I look forward to your continued support and wishes in our endeavor to give a second chance at life to the thousands who bank on us.

Thanking you for all your support.

Claudia Rutt
Chief Financial Officer
DATRI Blood Stem Cell Donors Registry

NOTE FROM OUR MEDICAL DIRECTOR

Dear DATRI Supporters,

It has been a wonderful journey with DATRI. It is heartening for a doctor to see so many cancer patients find a cure through DATRI Blood Stem Registry. With the pandemic behind us, DATRI has been able to swing back and help with so many collections. As a Medical Director, I am proud that the organisation has been able to gift so many lives. I look forward to another fulfilling and enriching year and wish DATRI all the best!

DATRI BOARD AND TEAM

Dr. Nezh Cereb,
Co-Founder & Chairperson

Dr. Cereb is the President and the Co-Founder of Histogenetics. Dr. Cereb is an expert in introducing and implementing the latest technology for HLA typing. He has a background in clinical medicine, particularly in bone marrow transplantation and in Basic and Applied Immunogenetics research.

Dr. Soo Young Yang,
Co-Founder & Director

Dr. Yang is the Chairman and the Co-Founder of Histogenetics, a state-of-art laboratory which specialises in HLA Typing. With over 25 years of extensive research and experience in HLA genetics.

*Meet our board and team,
who lead this journey.*

Nagarajan Sridharan,
Director

Nagarajan Sridharan joined DATRI as Director in the year 2019. He is the Vice-President–India Operations at Histogenetics (India) Pvt. Ltd. Before joining, he was helping DATRI with all IT related support. He is a graduate from the Indian Institute of Technology, Madras, and done his Master in Engineering, Biotechnology from BITS, Pilani.

DATRI VISION, MISSION AND VALUES

VISION

We envision a society in which every patient in need of life saving blood stem cells, is provided with an opportunity to find a HLA matched, willing donor.

MISSION

To create a registry of committed, voluntary, Tissue/HLA typed donors, who are well informed and are willing to donate, to a patient.

VALUES

Donor Safety

To ensure that donor safety is not compromised irrespective of the urgency of the patient's needs.

Excellence

To be driven by the spirit of excellence in attaining and maintaining first class quality in all endeavours.

Integrity

Ensure the highest level of honesty and integrity in all our interactions.

Compassion

To approach all our activities with a deep awareness of the situation of those who are in need of life saving transplants and promote sensitivity to the dignity of each individual.

Commitment

To be fully and passionately committed to our mission of saving lives through enabling volunteer enrollment for stem cell donation.

Transparency

To create openness and transparency in all our interactions & processes.

NUMBERS THAT MATTER

DATRI has a robust donor registry. When a request is raised for finding a match for a patient DATRI performs a thorough search in its database. Once the match is identified we initiate donor counselling and proceed with the blood stem cell collection process along with the apheresis physician and ensure transportation of the product.

DONOR RECRUITMENT AND DRIVES

DATRI's donor recruitment drives are the backbone in our mission to save lives. Registration drives help us to recruit and register more donors that will help patients to find their unrelated blood stem cell donor. DATRI conducts recruitment drives in corporates, colleges, communities and other places. In 2021-22, DATRI was able to add 14,701 potential donors to the registry.

DONOR RECRUITMENT AND DRIVES

A snapshot of our drives

Donor Registration Drive:
Pioneer College of Arts and Science
City: Coimbatore
Blood Stem Cell Donors registered: 102 potential

Donor Registration Drive:
Chinchpokli Sarvajanic Ganeshotsav Mandal
City: Mumbai
Blood Stem Cells Donors registered:
410 potential donors

Donor Registration Drive:
SSN College of Engineering
City: Chennai
Blood Stem Cell Donors registered:
400 potential donors

DONOR RECIPIENT MEET

Donor Recipient Meet are special for DATRI as it helps us to tell everyone about the cause we are here for “why we do what we do”. At a Donor Recipient Meet a donor gets to meet the patient to whom he or she has donated blood stem cells one year after the transplant. Once the donor and patient consent to meet the DRM is conducted. The patient meets his or her life saver and it is a celebration of life in all its fullness. In 2021-22 due to the impact of the pandemic DRMs were conducted both in the virtual and physical formats.

Our Donor-Recipient meets face to face.

DONOR RECIPIENT MEET

DATRI conducts E-DRMs:

Donor: Vipulbhai

Recipient: Sujal Jhakar (Malaysia)

E-DRM - Date: 11/7/2021

Donor: Sanket Bhalchandra Awate

Recipient: Rasel Mohmud (Japan)

E-DRM - Date: 30/7/2021

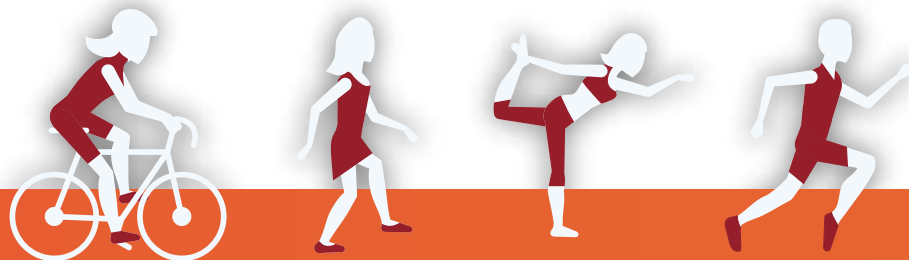

Our Donor-Recipient engage on the E-platform.

EVENT OF THE YEAR

One of the big events at DATRI was the cycling event held in Chennai to raise awareness on blood stem cell donation and to add potential stem cell donors to the registry. It was a first of its kind online marathon. The event was an attempt to bring people from all walks be it donors, sponsors, corporates, passionate cyclists to participate in the cycling event to spread the message on stem cell donation. Over 188 cyclists and well-wishers of DATRI joined the event virtually and this was a visual treat. The event had something for everyone – cycling, walking, running and yoga to ensure everyone is in it. The funds raised from the event helped in recruiting potential donors.

We cycle our way to Gift a Life!

DONOR TESTIMONIALS

When I became a match for a person suffering from blood cancer I was ecstatic. I just could not believe that I could save a life. Oh it was such a great feeling and it took a long time for it to sink. The whole process was smooth and all I thought was how this step of mine could help the patient to recover. I am happy that DATRI gave me the opportunity to become a donor.

- Rohan

It is my privilege to be a donor with DATRI. It is this organisation that gave me the chance to gift a life. Not all of us get such an opportunity. Today when I look back I feel so happy that I have been useful to someone. DATRI plays such an important role in saving the lives of so many and I am just a small part in that big picture.

- Johnson M.E

Our donors share their experience

Being a donor, getting the certificate and badge, is such a great feeling and more than that someone gets a chance to live life fully because I could donate by blood stem cells is a blessing for me. It is not very difficult to save someone's life, it's just that you need to have conviction and the heart to say YES. I will cherish the opportunity I have got from DATRI to be a lifesaver.

- Thanigasalam Arumugam

VOLUNTEER TESTIMONIALS

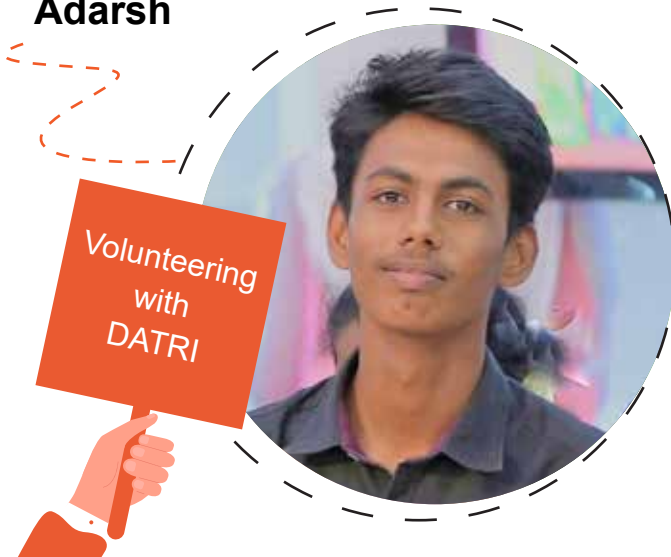

I am proud to be a volunteer with DATRI. I have had the opportunity to be part of recruitment drives and it has been a learning experience. We got the opportunity meet potential donors. I feel that volunteering with DATRI is one of the best ways in which you can give back to society something good. We need more volunteers who can be instrumental in saving lives.

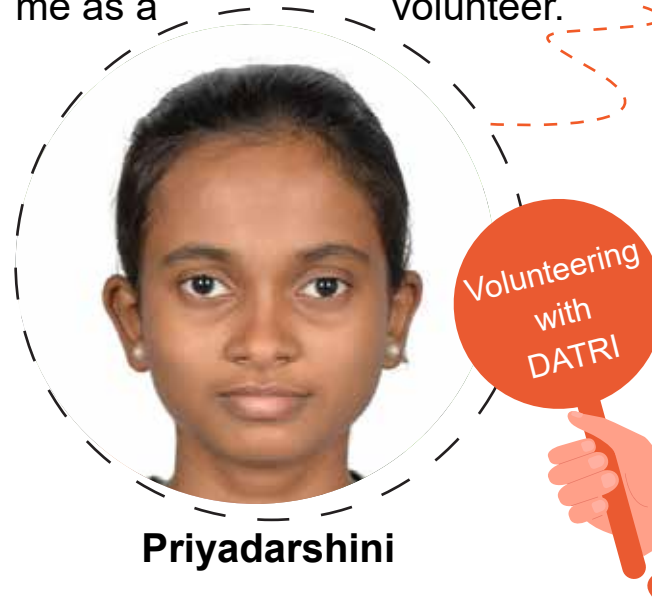

Volunteering with DATRI is a blessing. Every time we convince a person to become a volunteer, we are a step forward in giving a second chance at life to those affected with blood cancer or blood disorders. My time with DATRI has helped me evolve as a good human being. There is so much to do, learn and give. This is a cause that I feel is special and I thank DATRI for having chosen me as a volunteer.

So many people are still not aware about stem cell donation and how we can be instrumental in saving lives. I as a volunteer have tried to do my bit by spreading awareness, being part of recruitment drives, so that I can help more and more donors to be part the registry. My work is not even a drop in the ocean. I will continue to be a champion of the cause and I thank DATRI for giving me a chance to volunteer with the organisation.

SOCIAL MEDIA INSIGHTS

Social Media is the most happening platform for DATRI to get connected to our audiences and reach our messaging in the smartest and shortest way. We are happy that we are able to speak and interact with our donors, patients, doctors and well-wishers through social media sites and spread awareness about blood stem cell donation. DATRI uses Social Media Platforms like Facebook, Twitter, LinkedIn, YouTube and Instagram to connect and to share about the different activities, events and human interest stories.

Our social media engagement

MEDIA COVERAGES

Media has been an important medium for spreading awareness and information about Datri's mission to gift lives. Our impact stories, events, DRM's and activities have been covered in different media. The coverages have helped in raising awareness about our work to gift lives and add more potential donors to our registry.

Total Media Coverages (April 2021- March 2022): 64

THE COVAI MAIL

ENGLISH & TAMIL WEEKLY NEWSPAPER

Pioneer College supports Datri's noble cause

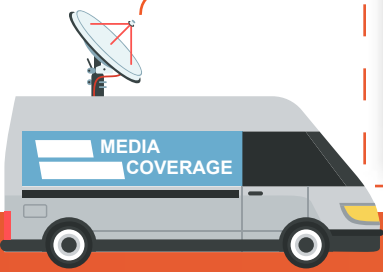

Members of YRC and Voluntary Blood Donors Club of Pioneer College of Arts & Science with their donor card.

The Covai Mail

Blood Donors Club registered as donors. By registering with Datri as a potential blood stem cell donor, one can give these patients and their families, a ray of hope to see a second chance to live their life again.

Thanking the college, Datri said via a press release "Pioneer college of Arts & Science YRC for giving us the opportunity to conduct a Blood Stem Cell Donation Drive successfully. We urge and request everyone to please come forward and help Datri in its mission and noble cause. A simple registration with Datri can make you worthy of Giftng a Life to someone who needs your help. Let us make our lives more meaningful by contributing towards our society".

Aparna Rajkumar, Secretary, Pioneer College of Arts and Science said "It's been an honour and privilege to be associated with Datri and signing up for their Registry for Stem Cell Donors. The opportunity to be able to serve humanity through this noblest of gestures is truly a humbling experience and one that is most soul satisfying. Today 130 people, including students, faculty and management, have given themselves the opportunity to gift a life via Datri."

CORPORATE SUPPORTERS

DATRI in its journey has received support and backing of many corporates. We were able to upscale our impact through corporate partnership. The funds from the corporates helped us to conduct drives and add potential lifesavers to our registry. This year through corporates DATRI recruited **14,689** potential donors and raised about Rs **12,18,786**. We look forward to continue working with these and many more corporates in the coming years.

REGISTER

Blood cancer and Thalassemia are words that have the force to unsettle even the strongest and bravest. It is not just the diagnosis of the disease, but also the social perception and lack of awareness about its treatment which makes it difficult for the patient to overcome the disease. An unrelated blood stem cell transplant is most often the only cure for such disorders.

A patient only has a 25% chance of finding a donor from within the family. Majority of the patients have to depend on an unrelated blood stem cell donor. The probability of finding an unrelated matched donor is 1 in 10,000 to 1 in over a Million. You could say that 1 in a Million match is for someone who is gripping on to their life at the edge with hope.

Take the first step. Register (www.datri.org/join) yourself as a potential Bone Marrow (or) Peripheral Blood Stem Cell. We can do it only with your support. Join along with thousands of volunteers who selflessly give their time, talent, and effort to support our life-saving mission. DATRI conducts awareness camps and donor drives across the country.

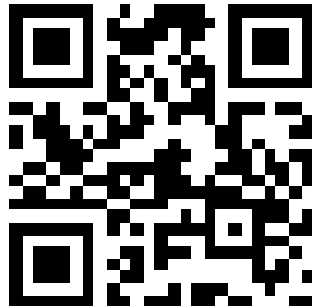

SPONSOR DONORS

- DATRI is a non-profit organization that recruits unrelated donors who have taken the first step to save a life.
- Funding for DATRI is required to support HLA typing cost incurred by a patient.

YOUR SUPPORT

- You can support our lifesaving cause with a money donation which will be exempted from tax under 80G. Each registration costs Rs 1800. Not all donors may have the capacity to bear this cost. You could sponsor such donors and contribute towards gifting lives.
