CORPORATE NEWSLETTER

MANAGEMENT DESK

Dear Friends in the Corporate World,

We have touched 5 lakh recruitments and gifted more than 1088 lives. These numbers would not have been possible without your active support. We are grateful to all the corporates who journeyed with us in our cause to gift lives. Without You we could not have come so far!

In the last 12 years we have partnered with many corporates and they have not just been supportive but also walked with us hand in hand to witness the impact of their contribution. As corporates you have shown tremendous responsibility in coming forward be it for donation drives, contributions, sponsorships or providing timely support to reach the most deserving to see their tomorrow.

The investments that corporates have made over the years encourages us to scale up our work and we know that together we can make a positive change in society. We echo what Helen Keller had said, "Alone we can do so little and together we can do so much."

Yes, your partnership inspires us to scale newer heights and we know that together we can gift many lives!

CELEBRATING LIVES - DONOR RECIPIENT MEET

DATRI and The Society for Rehabilitation of Crippled Children (SRCC) Childrens Hospital managed by Narayana Health, jointly organised a Donor Recipient Meet (DRM) in Mumbai in November, 2022. The DRM is a platform for donors to meet their recipients after one year of transplant. The recipients were suffering from different blood cancer or blood disorders and their only cure was the blood stem cell transplant. At the specially conducted event three donors got the chance to meet their recipients and share their thoughts and feeling.

Speaking at the event Dr Ruchira, Senior Consultant, Pediatric, Haemato - Oncology & Bone Marrow Transplant, SRCC said "We feel very happy when our patients recover from such life threatening diseases. We are happy that our hospital could partner with DATRI in its lifesaving mission. With DATRI's large database of blood stem cell donors, we are able to help many blood cancer patients who do not find a match within their family and are in need of an unrelated donor."

14-year-old Jhanvi Godhe was suffering from Thalassemia Major and it was Shankar Ramachandran who gave her a fresh lease of life as a donor. When she met him she was in tears and said "I was counting the days when I would get to meet my donor. I want to share that today I can see the world because of my donor's generosity. I will always remember him as a person who god chose to send only for me"

"A CELEBRATION OF LIVES GIFTED"

Naveen from Bangalore was the donor for little Ashutosh from Bhubaneswar. Naveen was overwhelmed to see his recipient now in good health, "It gives me immense joy to see that my act has helped to bring light in the life of the child as well as the family. Opportunities like this knock rarely in our lifetime and we must not hesitate to stand up. I am happy I could be part of DATRI's life saving mission."

DATRI has over the years successfully created India's largest registry with over 5,07,584 voluntary donors. For many suffering from fatal blood disorders like blood cancer and thalassemia, a blood stem cell transplant is the only hope of survival. Everyone can help to spread awareness on blood stem cell donation and gift a life. DATRI's endeavor and mission is to ensure every patient in need of a donation is able to find a match.

STAR HEALTH ENSURES THEIR EMPLOYEES GET THE CHANCE TO GIFT LIVES

Star Health Insurance is India's first standalone health insurance provider and its services are in health, personal accident and overseas travel insurance etc. We are glad to share that Star Health has partnered with DATRI for donor recruitments. DATRI is very happy the employees got a chance to know about stem cell donation and many of them came forward to become potential donors. As one of the Star Health Insurance senior official shared, "DATRI is instrumental in saving so many lives and I feel many more organisations should come forward to help in this cause." DATRI has conducted several donor recruitments in Star Health Insurance and about 900 plus staff have registered as donors. We at DATRI are overwhelmed with the response from Star Health Insurance and wish to thank them for making this an enriching partnership.

KOCH PARTNERS WITH DATRI TO ADD POTENTIAL DONORS TO DATRI REGISTRY

We are happy to share that Koch Engineered Solutions Private Limited has partnered with DATRI to make an impact in the lives of those battling with blood cancer and blood disorders. They generously supported with a donation of Rs 3,60,000 to support initiatives such as

- HLA typing of potential committed donors.
- Awareness about blood stem donation.
- Donation Drives

**V.G. Vaze college of Arts, Science & Commerce
(Mulund, Mumbai)**

Sardar Patel Institute of Technology
(Andheri west, Mumbai)

We were able to add 200 potential donors to our registry. DATRI is happy that this partnership with Koch Engineered Solutions will help us to impact so many lives. Such initiatives help us to reach more people and we are confident that this partnership will continue and we will be able to add more donors to our registry.

**YOUR ORGANIZATION AND YOU CAN BE
THE HOPE FOR VIHAAN
SAVE TAX AND GIFT A LIFE**

Nine-year-old Vihaan suffers from Thalassemia Major a rare blood disorder. Vihaan was diagnosed as Thalassemia Major when he was five months old and from that time he has been on blood transfusion once in two months. His only hope is to find a blood stem cell donor to gift him a new life. Here's is a chance to end the year on a promising note for children like Vihaan.

We truly value you. Your donation will be tax exempted under 80G; please use this opportunity to donate and claim an exemption.
